Sustainability

RESPONSIBLE FROM POWER TO PEOPLE

UNIVERSAL SWEATERS LTD.

Powered by the sun

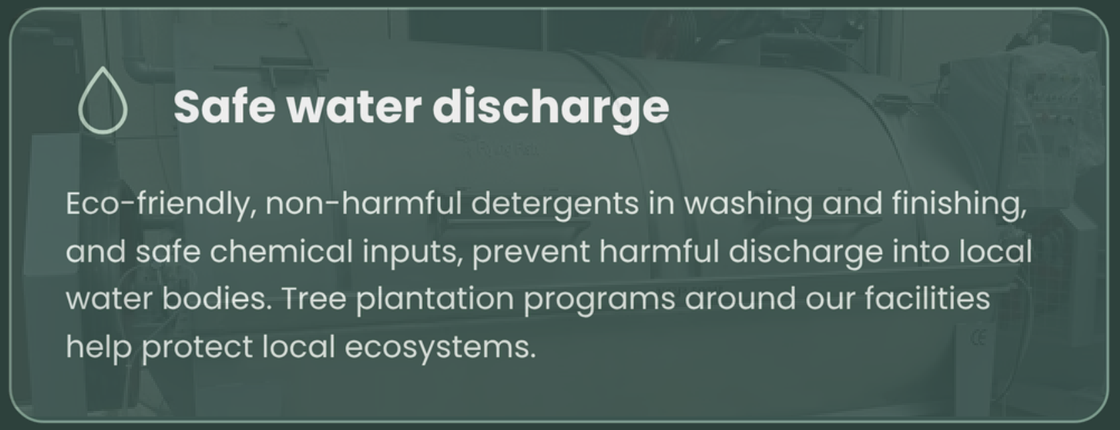

50%

Half of the power that runs our factory comes from solar energy.

Ethical sourcing

Compliant partners across the supply chain, with a vertically integrated, compliant packaging facility.

Safe water discharge

Eco-friendly, non-harmful detergents in washing and finishing, and safe chemical inputs, prevent harmful discharge into local water bodies. Tree plantation programs around our facilities help protect local ecosystems.

Empowered workforce

60%+

Fair wages, comprehensive healthcare and continuous skill development. We champion gender equality, with women making up over 60% of our workforce.

Our Story

GENERATIONS OF EXPERTISE. POWERED BY INNOVATION.

Founded in 2003 by Mr. M.A. Matin (retired commercial director at Unilever, Bangladesh). Our journey began with a humble foundation of 300 manual knitting machines and a vision to build a lasting legacy in the apparel industry. Following his passing in 2010, his sons, Saiful Matin Sohel, Chairman, and Faizul Matin, Managing Director, carried his vision forward with unwavering dedication and a commitment to continued growth.

In 2014, we took a significant step toward modernization by transitioning from manual operations to advanced Jacquard knitting technology. This strategic transformation enhanced our production efficiency, expanded our design capabilities, and optimized manufacturing costs. Today, we continue to build on the foundation laid by our founder, combining generations of experience with modern technology to deliver quality, innovation, and reliability to our partners.
